

# CopyWriter Pro Series

The cabled remote module gives the flexibility of positioning the interface in different ergonomic locations. For example, users can keep the tower tucked under a desk while keeping the remote on the user's desktop for easy control and status access. The powerful interface provides simple one-touch operation for the novice user while giving access to advanced features for the professional. The hard drive comes standard with the system and allows for CD image archival and track extraction for audio compilations. Up to 10 separate images can be stored on the hard drive. Recording speed may be adjusted to slower speeds to allow for use with media not certified for high-speed duplication. Taiyo Yuden media is suggested for high-speed duplication.

Model	Bays	Recorders	Empty Bays	Record Speed
CW PRO 252	6	2	3	52x
CW PRO 352	6	3	2	52x
CW PRO 452	6	4	1	52x
CW PRO 552	6	5	0	52x
CW PRO 652	9	6	2	52x
CW PRO 752	9	7	1	52x
CW PRO 852	9	8	0	52x
CW PRO 1252	18	12	5	52x
CW PRO 1652	18	16	1	52x

\*Note: The reader for the source disc occupies one bay.

## Supported Formats:

CD-DA, Mixed Mode, ISO 9660, Hybrid, CD-ROM Mode1/Mode2, CD-I, CD-ROM XA Form1/form2, HFS, UFS, CD-EXTRA (CD-PLUS), Video CD, CD+G
