

CopyWriter Tower Series

The CopyWriter Tower series features one-touch operation for simple CD copying, allowing any novice user to operate it effectively. Supported Formats: CD ROM Mode I and 2, Form I and 2, CD DA (Red Book Audio), CD 1, Mix Mode, Multisession, Video CD. Taiyo Yuden is the recommended media for this product. Process Modes: Actual Copy ... Copy directly from the source CD to the writer(s) simultaneously. Test Copy... Copy from the source CD to the blank disc as a test, no data is burned to the disc.

Firmware Upgrade: Turn on power with the START button pressed, and insert the

firmware disc into the master recorder. The system will automatically download the new firmware to the controller, and eject the disc when completed.

Two Year Warranty: CopyWriter Tower is an Editor's Choice Winner! The CopyWriter series comes with a Two Year Warranty. Microboards offers the MicroCare Warranty Service Program for CopyWriter Tower users, minimizing downtime and repair costs. Contact your Microboards Account Manager for details. The CopyWriter Tower series is expandable, so they can grow with you! Empty Bays can have recorders added later, so throughput increases as you grow.

Model	Bays	Recorders	Empty Bays	Record Speed
CWT252	6	2	3	52x
CWT352	6	3	2	52x
